website: www.asr-audio.com.au

The following price list is based on upgrade items available for the VY/VZ Blaupunkt head unit which include:

- **Auxiliary input** - Provides connection of a portable media player (eg. iPod or other MP3 player) via a 3.5mm jack to the factory stereo unit. Hard-wired, no interference problems.
- **4-Channel RCA Out** – Provides true "pre-amp outputs" via 4 RCA sockets for connection to external amps. Vastly superior sound quality compared with Line Output Converters (LOCs). Includes "remote" output for amplifier power control.

All prices are to be used as a guide only & include GST. Any further questions can be directed through our contact as seen above!
